

Josh Hatfield

Graduate Web Designer

PERSONAL SUMMARY

I have recently graduated from Teesside University with a Second Class Degree in Web and Multimedia Development. I am looking for an opportunity to build on my academic achievements and achieve employment within the industry.

I am very enthusiastic about the design, development of websites and applications and I am seeking a position, which will help me develop further.

Whilst studying at university I gained additional experience implementing industry standard techniques by practising and developing my skills in an informal basis. I am proud to say that I have been designing websites since I was fifteen. I have developed my own portfolio which is available at www.joshhatfield.co.uk

I am hard working, a team player with an ability to complete tasks on time, paying attention to detail and quality.

In my spare time I use computer software to make music, in partnership with my twin brother we produce and DJing at events at a number of cities ran by myself or other parties.

RELEVANT WORK EXPERIENCE

Howard Conrad Ltd

July 2016 - Current

My employment at Howard Conrad Ltd. Apple repair centre involved inspecting, testing and repairing Macintosh computers. This required problem solving, working as a team and technical skills and knowledge of computer software and hardware. I also assisted customers regarding sales, repairs and upgrades either in person or over the phone.

Triangle Consulting Engineers Ltd

August 2017 - Current

Work experience. I have worked with my client, Triangle developing an alternative branding complete with a new logo and responsive website. This website is bespoke using purely HTML, CSS and JS. This involved regular client meetings to receive feedback and help gain a further understanding of the clients needs and develop my understanding of the commercial sector.

Old Spring Well (Marston's PLC)

May 2015 – September 2015

Seasonal summer work at a busy restaurant, the Old Spring Well. My role was greeting, serving and looking after customers as a waiter. I had to ensure customer satisfaction, handle credit and cash payments and deal with any dissatisfaction during their stay.

PERSONAL ATTRIBUTES

Honest - Enthusiastic - Hard working – Creative - Attention to detail - Motivated to learn + Full clean driving license.
