

Joshua Hatfield

Graduate

PERSONAL SUMMARY

After recently graduating from Teesside University with a Second Class Degree in Web and Multimedia Development, I am currently looking for an opportunity to build on my academic achievements and find employment within the design discipline. I am very enthusiastic about the design and development of websites amongst other aspects of the design industry.

Whilst studying at university I gained additional experience implementing and practising my skills on an informal basis. I am proud to say that I have been designing websites since I was fifteen and currently developing an up to date portfolio; www.joshhatfield.co.uk

I am a hard working team player with the ability to complete tasks on time, paying attention to very small details while maintaining the highest quality of work to my standards.

Out side the design world I use computer software/hardware to make music. In partnership with my twin brother I produce music, DJ and run events both nationally and internationally.

ACADEMIC QUALIFICATIONS

2016 – 2017 | BA (Hons) Web And Multimedia Development

2014 – 2016 | FdSc Web Design

2011 | Certificate in Digital Applications (age 15 achieved a Merit)

Marvell App	Creating live prototypes during project design stages
Photoshop	Creating artwork, logo designs and branding
Illustrator	Creating artwork, logo designs and branding
After Effects	Editing short videos for promotional material
WordPress	Using CMS to edit content or manage current websites

RELEVANT WORK EXPERIENCE

Howard Conrad Ltd (Full Time) £17k Annually

July 2016 - Current

My current employment at Howard Conrad Ltd. Apple repair centre involves inspecting, testing and repairing Macintosh computers. This requires solving hard problems, working as a team and displaying technical knowledge of computer software and hardware. I heavily assist customers regarding sales, repairs and upgrades either in person or over the phone. On top of this I manage eBay accounts and oversee the full process from dealing with the customer to posting out the products. This also involves taking/editing photos of our products ready for listing.

Triangle Consulting Engineers Ltd (Freelance)

August 2017 - Current

In hopes of gaining some work experience I have worked with the client developing an alternative branding complete with a new logo and fully responsive website. This website was coded by myself from scratch using purely HTML, CSS and JS. This involved client meetings to receive feedback and help me gain a further understanding of the clients needs to develop my understanding of the commercial sector.

Old Spring Well (Seasonal while studying - Marston's PLC)

May 2015 – September 2015

(University) Seasonal summer work at a very busy restaurant, Old Spring Well. My role was greeting, serving and looking after customers as a waiter. I had to ensure customer satisfaction at all times, handle credit and cash payments and deal with any dissatisfaction during their stay. Other jobs included cleaning, handling food and working on the bar.

PERSONAL ATTRIBUTES

Honest - Enthusiastic - Hard working – Very Creative – Good attention to detail - Motivated to learn – Eager to get involved - Full clean driving license + Car.
